

Explore

Explore interests to narrow down practice areas

- Be intentional about course selection
- Get involved in student orgs and journals related to your interests
- Attend events to learn about practice areas of interest
- Consider informational interviews with organizations of interest

Build Skills

Build skills and experience

- Maximize your 1L summer (set goals to develop skills)
- Prioritize experiential learning and projects
- Seek a 2L summer that will hone skills and fill gaps

Think Ahead

Prep for the post-grad market

- Meet with SJI regularly
- Network! Build relationships with recommenders and hosts
- Learn about fellowships
- Ready application materials
- Think about financing/LRAP
