

1L Electives Switches in LawNet

1L Students can now directly register for a different 1L Elective course with open seats in LawNet. Follow the instructions and screenshots below.

Login to LawNet and select **Register for 1L Elective Course** under the Registration Services menu.

PLEASE NOTE: you can register for only ONE elective course. If you would like to register for another class (with open seats), you will have to drop from the existing 1L Elective registration. There is no option to add yourself to a course waitlist.

Before dropping your existing registration, make sure there are open seats in the class you want to add yourself into. Registration Services cannot add you back into a course if there are no open seats.
